Name: \_\_\_\_\_

Date: \_\_\_\_\_

Project Focus Question: \_\_\_\_\_

What?  
Fast Drive 3D printer

Why?

How?

- find a <sup>broken</sup> 3D printer
- talk to Eddie about his 3D printer
- 1) visit a company that makes 3D printers
- find a parts list
- look for video tutorials
- 2) find a manual
- How do printers & computers talk to each other?
- Make own design
- test results
- what happens if the printer stops?

Measuring Success

- Having a 3D printer that prints things
- Able to test results

Notes:

- Make the entire thing at Dee's office
- Can a 3D printer run on Samed & print glass?
- How to make it go faster - what are faster motors to use?

### Action Plan Template

<b>Action step:</b> What will be done?	<b>Responsibilities:</b> Who?	<b>Timeline:</b> When will it be done? day/month	<b>Resources:</b> What do we have? What do we need?	<b>Potential issues:</b> What are the concerns? Proactive steps?
